practical guidance for daily life every day we are confronted with difficult problems or complicated situations for which we either don't have enough information to make clear

cut decisions or for which there is no easy intellectual answer at these moments we all wish for another way to know how to make the right choice there is another way through using our intuition more than just a feeling or a guess true intuition is one of the most important yet often least developed of our human faculties often thought of as something vague and undefinable many people mistakenly assume that intuition cannot be understood and developed intuition for starters straightforwardly explains what true intuition is and where it comes from describes the attitudes necessary for developing it and gives you easy to understand practices and guidelines that will help you tap into intuitive guidance at will

microsoft s windows vista is the much anticipated successor to the windows xp operating system david pogue offers help for using the system with this manual

this is the first book length study of the uncanny an important concept for contemporary thinking and debate across a range of disciplines and discourses including literature film architecture cultural studies philosophy psychoanalysis and queer theory much of this importance can be traced back to freud s essay of 1919 the uncanny where he was perhaps the first to foreground the distinctive nature of the uncanny as a feeling of something not simply weird or mysterious but more specifically as something strangely familiar as a concept and a feeling however the uncanny has a complex history going back to at least the enlightenment nicholas royle offers a detailed historical account of the emergence of the uncanny together with a series of close readings of different aspects of the topic following a major introductory historical and critical overview there are chapters on the death drive déjà vu silence solitude and darkness the fear of being buried alive doubles ghosts cannibalism telepathy and madness as well as more applied readings concerned for example with teaching politics film and religion this is a major critical study that will be welcomed by students and academics but will also be of interest to the general reader

an astute observer once described the scene at a typical dog show as organized confusion while the action may seem more confusion than organization the reverse is actually true it just takes a little while to learn this dog showing for beginners is the ideal

means for the budding exhibitor to grasp the essentials and understand what is unfolding before her or him in this unique recreation every chapter has something important to tell the reader opening with a candid overview of what to expect from being a part of the sport dog showing for beginners goes on to help find that first show dog and explain how to get started in showing and hands on learning here are simple explanations of how dog shows are structured and how dogs become champions excellent guidance on getting the equipment needed and entering shows is included along with how to approach your first show this book also helps the reader find a place in dog showing and how to deal with the up and the down sides of the game from beginning to end dog showing for beginners is touched with an insider s sometimes irreverent whimsy as the author points out if you re going to do dog shows a sense of humor is a definite plus a howell dog book of distinction
