with the aim of envisioning new horizons for a theology of glory exploring the glory of god new horizons for a theology of glory offers fresh biblical theological and scientific perspectives on the subject of divine self revelation and human responses to the manifestations of divine presence the first three chapters explore the glorious encounter between moises and god and the christological dimensions of glory in johannine and pauline writings these chapters demonstrate how the biblical text inherently weaves aspects of covenant relationship revelation christology ecclesiology and eschatology into a remarkable tapestry of divine glory five theological chapters cover the role of the holy spirit and the worshipful response of believers to the glory of god as well as expositions on the glory themed writings of jonathan edwards karl barth oscar romero and etty hillesum these theological writers provoke challenging questions by emphasizing how the theme of glory paradoxically encompasses both otherworldly perfection and worldly imperfections the two concluding chapters focus on the natural and physical sciences revealing how god s glory is displayed in the heavens and on earth the entire volume

demonstrates the significance of divine glory in the study of the words and works of the triune god
